Recorder's Office launches new, redesigned homepage

The Pima County Recorder's Office is excited to announce the launch of the newly redesigned homepage at recorder.pima.gov, created to provide an improved user experience for those seeking information on Voter Registration, Early Voting and Document Recording services.

This update represents a significant step forward in our commitment to making essential services more accessible and user-friendly for our community.

The new homepage prominently features our divisions at the top: Public Document Recording & Research and Voter Registration & Early Voting. This helps users quickly and easily find the information they need. The strategic placement is designed to streamline access to critical services during election periods and beyond.

Additionally, the redesigned homepage includes several new, big, colorful buttons that link directly to a wide range of our services. These buttons are clearly labeled and easy to navigate, allowing users to find specific services such as:

- Registering to vote
- Checking Voter Registration status
- Finding Early Voting Sites
- Requesting Ballots By Mail
- Subscribing to Document Services
- Searching Public Records
- Subscribing to Fraud Notify

“Our office would get calls and emails from constituents who could not find what they were looking for. During the past year, we listened and designed the homepage based on our users’ feedback!” said Pima County Recorder Gabriella Cázares-Kelly

The launch of this redesigned homepage is part of our ongoing mission to improve our digital services and ensure that every member of our community can easily access vital information and resources.
